

September 27, 2021

The Honorable Michael Regan  
Administrator  
United States Environmental Protection Agency  
1200 Pennsylvania Avenue, NW  
Washington, DC 20460

Comment in re: Docket EPA-HQ-OAR-2021-0208

Dear Administrator Regan:

We urge the U.S. Environmental Protection Agency to set strong greenhouse gas standards for light-duty vehicles that drive the transition to a zero-emission future.

Climate change puts everyone at risk, including my family. To help protect our health from the impacts of air pollution and climate change, the nation needs to transition to zero-emission transportation.

Please finalize near-term greenhouse gas standards for light-duty vehicles that are at least as strong as the standards that the SAFE rule replaced. Then, please act quickly to set stronger standards out to at least 2030 that drive the transition to zero-emission transportation nationwide.

Sincerely,

Dawn Albanese
